

# Major Gifts

INVESTING IN OUR FUTURE

Xavier is deeply grateful for all the gifts it receives – large or small. The continued generosity of alumni, friends, corporations, and foundations is the fuel that drives us forward by providing funds to award scholarships to students, to recruit and retain exceptional faculty, to support instruction and research, to expand academic support and student services, and to pay on-going operational costs.

A major gift to our university of \$25,000 or more represents a meaningful and personal commitment from a supporter who is in relationship with our mission. Major gifts can be transformational. In the past they have allowed the University to take on large scale projects that quickly impacted the campus, funding such recent

campus construction as the Qatar Pharmacy Pavilion, the St. Katharine Drexel Chapel, and the restoration of Xavier south.

Major gifts can support more than just capital improvements. They can provide substantial funding for student scholarships, the expansion of academic programs, the establishment of endowed professorships and chairs, and the upgrading of existing facilities, just to name a few.

Making a major gift to Xavier represents a substantial investment in the betterment of our campus, and in the continuation of our mission and the future of our students. We invite you to explore the possibilities of how you can best grow in relationship with our mission and, ultimately, enrich the lives of our students in some meaningful way.
